1. On 6 November 1969 I reviewed the attached analysis of subject bill with [REDACTED], Office of Security, and requested:

a. Information on what problems, if any, the bill creates for activities of the Office of Security; and

b. Information from security services of the Civil Service Commission, Department of Defense, FBI, and others on their position, if any, with respect to the bill.

25X1

2. Today, I met with [REDACTED] and five other Security Office representatives and [REDACTED] OGC, with the following outcome:

a. Information on the positions of security services in sister agencies is not yet in hand but will be received soon;

b. The bill does not appear to represent a serious problem on Agency use of consumer reports in connection with overt employment. Use in connection with certain "operational" purposes does appear to present a problem.

c. [REDACTED] will, in a short paper, precisely identify the problem areas we discussed, their size, and suggest such solutions as Security may wish to recommend.
